# Subject Index to Volume 11—1989

Air-powder abrasive device, effectiveness on tooth and periodontium, 4:7
Air delivery system, microprocessor temperature-controlled system, for dentinal hypersensitivity testing, 2:3
Anticalculus dentifrices, clinical effectiveness of, 1:13
Antimicrobial effects, *in vivo*, of chlorhexidine mouthrinses, 5:10
Apex locator, analog type, to assess position of dentine pins, 4:22
Apples, effect on caries and periodontal disease, 1:8
Attitudes, effect on sealant use and related variables, 5:3

Bacteria
  *in vivo* antimicrobial effects of chlorhexidine mouthrinses and, 5:10
  oral, effect of smoking on, 1:3
Book reviews
  *Dentistry for the Child and Adolescent*, 2:9
  *Modern Concepts in Operative Dentistry*, 6:31
  *Oral Surgery*, 4:6
Bridges, bonded metal, lingual contours of, gingival responses to, 5:15

Calculus index scores, Volpe-Manhold, correlation with actual calculus area, 6:3
*Candida*, oral, effect of smoking on, 1:3
Cervical strain, effects on craniomandibular apparatus, 1:29
Chewing gum, fluoride-containing, effect on remineralization of carious lesions and fluoride uptake, 6:6
Chewing sticks, toothbrushes versus, in West Africa, 3:11
Children, salivary testing to reduce sugar consumption in, 4:12
Chlorhexidine mouthrinses
  effects on plaque reformation, gingivitis, and tooth staining, 6:12
  staining and antimicrobial effects of, *in vivo*, 5:10
Craniomandibular apparatus, effects of cervical strain and mandibular whiplash on, 1:29
Craniomandibular dysfunction therapy, with transitional dentures, duplicating maxillomandibular relationships after, 6:27

Dental caries
  effect of apples and grapes on, 1:8
  induced by self-administered medications, preventive management of, 6:17
  radiography for diagnosis of, in posterior teeth, 1:24
  remineralization of, effect of fluoride-containing chewing gum on, 6:6
  of root surface, 3:14
Dental rinse, pre-brushing, direct plaque removal by, 3:21
Dentascan, 2:28
Dentifrice(s)
  anticalculus, clinical effectiveness of, 1:13
  Microsil-containing, in prevention and treatment of gingivitis, 1:17
Dentinal hypersensitivity testing, microprocessor temperature-controlled air delivery system for, 2:3
Dentine pins, analog type apex locator to assess position of, 4:22
Dentistry, outlook toward, effect on sealant use and related variables, 5:3
Dentures
  with monoplane occlusion, traditional and Orthopedic Relator systems for constructing, 2:10
  transitional, duplicating maxillomandibular relationships after craniomandibular dysfunction therapy with, 6:27
DynaTorq EXEL Handpiece System, 2:28

Emergency management, of temporomandibular joint disorders, 2:29
Enamel
  acid-etched, scanning microscopy of resin infiltration patterns in, 3:3
  erosion of, by fruits, 5:23

Fluoridation, benefits of, after 14 years, 6:21
Fluoride, chewing gum containing, effect on remineralization of carious lesions and fluoride uptake, 6:6
Fluoride ion level, in water, systems for measuring, 5:19
Fruits
  effect on caries and periodontal disease, 1:8
  enamel erosion by, 5:23

Gender differences, in oral hygiene behavior, 3:6
Gingival response, to lingual contours of bonded metal bridges, 5:15
Gingivitis
  effects of chlorhexidine mouthrinses on, 6:12
  Microsil-containing dentifrice in prevention and treatment of, 1:17
Grapes, effect on caries and periodontal disease, 1:8

Hydrogenated starch hydrosylates, effect on plaque pH, *in vivo*, 2:20

Knowledge, effect on sealant use and related variables, 5:3

Laboratory testing services, for identification of periodontal pathogens in dental plaque, 4:18
Leukocytes, oral, effect of smoking on, 1:3

Mandibular whiplash, effects on craniomandibular apparatus, 1:29
Maxillomandibular relationships, duplicating, after craniomandibular dysfunction therapy with transitional dentures, 6:27
Medications, self-administered, preventive management of caries induced by, 6:17
Microsil-containing dentifrice, in prevention and treatment of gingivitis, 1:17
Mouthrinses, chlorhexidine-containing
  effects on plaque reformation, gingivitis, and tooth staining, 6:12
  staining and *in vivo* antimicrobial effects of, 5:10
Mouthwashes, sodium retention from, 4:3
Myofascial pain dysfunction syndrome, occlusal splint therapy in, 4:26

Occlusal splint therapy, in myofascial pain dysfunction and internal temporomandibular joint derangements, 4:26
Operative dentistry instruments, sterilization of, 2:17
Oral ecology, effect of smoking on, 1:3
Oral hygiene behavior, gender differences in, 3:6
Orthopedic Relator system, for constructing dentures, with monoplane occlusion, 2:10

Periodontal disease
  effectiveness and patient compliance with plaque control methods in prevention of, 2:24
  effect of apples and grapes on, 1:8

Periodontal pathogens, laboratory testing services for identification of, in dental plaque, 4:18
Periodontium, effectiveness of air-powder abrasive device on, 4:7
pH, of plaque, *in vivo*, effects of hydrogenated starch hydrosylates on, 2:20
Plaque
  identification of periodontal pathogens in, availability of laboratory testing services for, 4:18
  pH of, *in vivo*, effects of hydrogenated starch hydrosylates on, 2:20
  reformation of, effects of chlorhexidine mouthrinses on, 6:12
Plaque control methods, effectiveness and patient compliance with, in prevention of periodontal disease, 2:24
Plaque removal, by pre-brushing dental rinse, 3:21
Product news
  Dentascan, 2:28
  DynaTorq EXEL Handpiece System, 2:28
  Professional Strength Efferdent, 2:32
  "The Home Video Guide to Oral Hygiene," 6:5
  Vita Temporary Crown and Bridge Kit, 4:25
Professional Strength Efferdent, 2:32

Radiography, for diagnosis of dental caries, in posterior teeth, 1:24
Rehabilitation, phase II, of temporomandibular joint dysfunction patient, 5:29
Resin infiltration patterns, scanning microscopy of, in acid-etched enamel, 3:3
Rinse(s)
  chlorhexidine-containing
    effects on plaque reformation, gingivitis, and tooth staining, 6:12
    staining and *in vivo* antimicrobial effects of, 5:10
  pre-brushing, direct plaque removal by, 3:21
Root surface caries, 3:14

Saliva, effect of smoking on, 1:3
Salivary testing, to reduce sugar consumption, in school children, 4:12
Salivation, effect of smoking on, 1:3
Scanning microscopy, of resin infiltration patterns, in acid-etched incisor enamel, 3:3
Sealants, effect of knowledge, attitude, and outlook toward dentistry on, 5:3
Smoking, effects on oral ecology, 1:3
Sodium retention, from mouthwashes, 4:3
Staining, chlorhexidine mouthrinses and, 5:10
Starch hydrosylates, hydrogenated, effect on plaque pH, *in vivo*, 2:20
Sterilization, of operative dentistry instruments, 2:17
Sugar consumption, salivary testing to reduce, in school children, 4:12
Surgery, of temporomandibular joint, patient management and, 3:28

Temporomandibular joint
  internal derangements of, occlusal splint therapy in, 4:26
  management of surgical patient and, 3:28
Temporomandibular joint dysfunction
  acute, emergency management of, 2:29
  phase II rehabilitation of, 5:29
Tooth
  effectiveness of air-powder abrasive device on, 4:7
  staining of, effects of chlorhexidine mouthrinses on, 6:12
Toothbrushes, chewing sticks versus, in West Africa, 3:11

Volpe-Manhold calculus index scores, correlation with actual calculus area, 6:3

Water fluoride ion level, systems for measuring, 5:19
Whiplash, mandibular, effects of craniomandibular apparatus, 1:29
